

Pale Moonlight

We took a walk in the pale moonlight
Under the stars I held you tight
I want you with me all the time
Our dreams, our hopes, our hearts combined

Days pass quickly and still no sign
We'll be together for all time
I want to spend my days and nights with you
To be a part of everything you do
Again, I ask you to be mine

Chorus:

Don't keep me waiting for your answer
I can't survive another day...alone
Don't keep me waiting for your answer
You know your heart will lead the way

Lead

Middle:

Then you smiled and took my hand
And looked me in the eyes
(You) said I'm the one you dream about
On nights with pale moonlight

Lead

Yesterday you said yes to me
Now we'll be together eternally
I want you with me all the time
Our dreams, our hopes, our hearts combined
And then, you told me you'll be mine.

You kept me waiting for your answer
I couldn't survive another day...alone
You kept me waiting for your answer
You know your heart will lead the way

You know your heart will lead the way
You know our hearts will lead the way
